Kids have a blast looking at the glowing skeletons. The best way is with a flashlight, in a darkened room (saves having to get up and switch the room lights on and off).

I'm a librarian and brought a book of glow-in-the-dark skeletons home for my four-year-old numerous times. Since he loved it so much and it was no longer in print, I decided to try this book. He LOVES it!!! I thought he'd be disappointed it wasn't his old favorite but he now has a new favorite. The only problem is he wants to read it all the time and it's very difficult to make the skeletons glow in the daytime!!!

My boys love reading this book at night with a flashlight. Its fun to light up the page and read it, then turn out the lights and watch the dinosaur bones appear and glow. So fun! I bought one for my dinosaur loving nephew too!
