This book is also handy if you’re looking into improving your family social skills and also interested and family/marital counseling.

This book was required for a course I took. I enjoyed reading this book and decided to keep it as it has a lot of information that applies to everyday life. I have found it useful.

It is a great textbook, and it came quickly and at a good price! The packaging was phenomenal and prevented water damage from the rain that day. Very pleased, five stars!

Book arrived quickly and in great shape. I rented this book for school and it will work just fine for that
purpose.

Had to buy this book for my college course. Much cheaper and great quality. I have no complaints about this product.

The product was shipped and received pretty fast. I was upset to see that the book was not in the condition I thought it was, according to the description it gave me.

I received this book fairly quickly and it was still in its original wrapping. I am very positively impressed with this purchase. Highly recommend! Thank you:

This is the most tedious textbook ever. Each chapter says the same thing only slightly different. Do not recommend. Loved the class - hated the book.
