Structure And Function Of A Chihuahuan Desert Ecosystem: The Jornada Basin Long-Term Ecological Research Site (Long-Term Ecological Research Network Series)

Synopsis

The Jornada Basin LTER is located in the Chihuahuan Desert, the largest in North America. This region of south central New Mexico has a history of nearly 100 years as the basis for scientific research. This work gives a thorough, encompassing review of the tremendous array of observations resulting from experiments conducted in this ecosystem. Beginning with thorough descriptions of the most salient features of the region, the book then reviews a wide range of archived and active data sets on a diversity of biotic and abiotic features. It next presents a syntheses of important topics including livestock grazing and remediation efforts. A concluding chapter provides a synthesis of the principles that have emerged from this body of work, and how these relate to the broader fields of ecology and natural resource management. It concludes with recommendations for future research directions. The insightful views expressed in this volume should guide management of arid landscapes globally. This is the sixth volume in the Long Term Ecological Network Series.

Book Information

Series: Long-Term Ecological Research Network Series

Hardcover: 492 pages

Publisher: Oxford University Press; 1 edition (July 20, 2006)

Language: English

ISBN-10: 019511776X

ISBN-13: 978-0195117769

Product Dimensions: 9.3 x 1.1 x 6.2 inches

Shipping Weight: 1.8 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 starsÂ Â See all reviewsÂ (1 customer review)

Customer Reviews

This is a great find. It's a required book for one of my husbands grad courses. At the university it was selling for over 100.00 usd and we were able to get it for a tenth of the price!
