The 100 Boxed Set

Synopsis

New York Times bestseller The 100--now available in a paperback boxed set!For centuries after a nuclear war destroyed the Earth, the human race has lived on spaceships far above the radioactive surface. Now, for one hundred juvenile delinquents, it's time to return home. Their mission: recolonize the savage land. The future of humanity rests in their hands.Read the series that inspired the hit TV show. The 100, Day 21, and Homecoming are gathered together for the first time in this striking boxed set, perfect for fans and series newcomers alike.

Customer Reviews

I have been watching the tv series and was excited to see it was based on books. I was very pleased when the shipping came faster than expected and in perfect condition. Am currently almost through the first book and it is so good. Would recommend this to anyone who is into The 100 as much as I am!

i love this tv show, so i decided to get the books. very good, but also very different (no Finn, many new characters). however these are great books.

Vastly different from the t.v. show, which I watched first. I honestly think both are equally good despite the differences. I really like that the books are set 300 years after the war, not 97 like the

show. Makes it seem more "real". The books also deal with conditions/day to day life on the "Colony" more than the show did on the ark. The books are definitely written for teen/young adult. Being an old adult, I still enjoyed it. The characters in the book act much more like hormonal fueled teens, than the ones on the show.

Omg it blew my expectations! It isn't the same as the show but it's still equally or even greater than amazing!!

Outstanding books. I'm usually a fan of longer books. I have a bit of an issue with getting too attached to a good book. Anyway, despite the 310-350 page books, I was entranced. Just this week I read the first 2, and should have the 3rd finished within the next 3 or 4 days. If I don't update this review, assume the 3rd was just as good. The books are in 4 different point of views: Clarke, Bellamy, Wells & Glass. Normally, the different point of views drive me nuts. The 100 series defies my standard view on this. It allows you to really get inside each of the main characters heads. If you're still reading this review, stop. Put this trilogy in your shopping cart, and click buy. You won't regret it. And for the record, NOTHING like the TV show. Just....nothing. You can easily like both, no problem. But they are vastly different. So if you've seen the show and think "hey, I don't need to read these since I've seen the show!" WRONG! Just read these books. You're welcome in advance :)

Keep in mind I finished the first book within a week and I'm not much of an avid reader so I was excited to actually be through with a book in such a short period of time such a great book, I cannot wait to start the second in the series! Kass Morgan is an amazing writer that does a great job getting the reader to be immersed into the story, 5/5 would recommend 100% of the time. The story is different than the view from the producer/director on the CW version of it but it's a great story either way!

We watched the show and liked it... but the books are "100" times better! Don't even compare them, two different stories. The books are captivating and my two teenage daughters sped through them and can't wait for book 4.

This box set was a gift for my granddaughter which she requested. She is an avid reader so I am happy to provide her with reading material. She was very happy with these books. Sorry I can't give

a better review as I haven't read them.
