Inventing Arguments, Brief (Inventing Arguments Series)
**Synopsis**

Organized around common rhetorical situations that occur all around us, INVENTING ARGUMENTS shows you that argument is a living process rather than a form to be modeled. Through the text's prominent focus on invention, you will learn to recognize the rhetorical elements of any argumentative situation and apply the tools of argument effectively in your own writing. The basic layers of argument are introduced in early chapters, with material arranged into increasingly sophisticated topics beginning with the most obvious or explicit layers (claims) and moving to more implied or "hidden" layers (assumptions, values, beliefs, ideology). By the time you finish Part 1, you will have a thorough understanding of argument, which you can then apply not just to the invention projects in Chapters 7-12 but also to your writing for other college courses and beyond.

**Book Information**

Series: Inventing Arguments Series  
Paperback: 496 pages  
Publisher: Cengage Learning; 4 edition (January 6, 2015)  
Language: English  
ISBN-10: 1305113314

#65 in Books > Reference > Words, Language & Grammar > Public Speaking

**Customer Reviews**

It did meet expectations, and was not damaged, though with the abundance of coverage with the used book tape i wasnt sure it was the correct one, but i compared it to a new book afterwards.

Good condition, great price.
