# Handbook For Pulp And Paper Technologists

## **Synopsis**

Book by Smook, Gary A.

## **Book Information**

Hardcover: 419 pages

Publisher: Tappi Pr; 2nd edition (June 1992)

Language: English

ISBN-10: 0969462816

ISBN-13: 978-0969462811

Product Dimensions: 1 x 7.2 x 10.2 inches

Shipping Weight: 1.9 pounds

Average Customer Review: 4.2 out of 5 stars [See all reviews](#) (6 customer reviews)

Best Sellers Rank: #439,092 in Books (See Top 100 in Books) #257 in Books > Science & Math > Biological Sciences > Plants > Trees #9845 in Books > Science & Math > Nature & Ecology #15846 in Books > Engineering & Transportation > Engineering

## **Customer Reviews**

This book is the standard in the industry for a reason. It is concise and complete, touching on every aspect of papermaking.

I work in the field of computerization and I manage the technology sales for my company in the P&P Industry. This is a book that I have given to several of my colleagues who need to get up to speed and understand how the industry works. Smook is very concise and describes all types of mills in our Industry. For the Engineer who needs an explanation of the unit operations in a mill and how they interact, this is the book. It is the de-facto standard.

As advertised title, edition, and condition. For the price couldn't beat it compared to the most recent edition. Will quickly get you familiar with the processes.

I am a member of the Pulp and Paper Manufacturers Association and I hold a degree in Chemical Engineering. For the Pulp and Paper Industry, Smook's textbook is one that you will commonly find that is used a reference. It was recommended to me by another engineer active in the industry as well. It is an excellent source for interactions with unit operations in relation to several different types of papermaking methods currently in use. I highly recommend it!

The book I purchased was NEW. But, when I received it the book had water spots and dirty finger prints through out. Lots of!

This book arrived during in time and in perfect conditions. I definitely recomend this supplier.
