I purchase this book for a friend who considered himself as a Psychic, he told me that he sees something we don't and I believe this book could be an eye opener to him. I check the book and it is really well organize and written. Jen did a great job on creating a very well detailed book like this and I commend her for that.

This was my first book about psychic and I can tell that this book was something I am expecting. I found it helpful and I have learnt a lot from it, even new things and it also became my refreshment on my old knowledge about it.

Highly recommended!

I approach this book more out of curiosity than for some other reason, before reading it in fact did not believe in any extrasensory ability, however, I must admit that after reading it, I remain fascinated with the subject, many things described in it have been part of my life and I believe that he did not see it because my eyes were closed regarding the subject. With this book the author really gives you a great introduction into the psychic world in such an easy way, and provides you with certainly fascinating information, I found it amazingly interesting.

I am not planning become a psychic for sure, but what I need is to have a knowledge about psychic. I am happy to have this because it answer all my questions about psychic. I admit and agree with

the author, we have our own individual power, but we don't know how to use it and develop it.

Through this book we can understand how these things work.
