Cengage Advantage Books: Fundamentals Of Business Law: Summarized Cases

Synopsis

Brief and affordable, **FUNDAMENTALS OF BUSINESS LAW: SUMMARIZED CASES**, 9th Edition zeroes in on the core business law topics you need to know, including contracts and sales, in an abbreviated, paperback book. The summarized cases integrated throughout illustrate key points of law without overwhelming you with unnecessary detail. Ideal for wanting needing guidance with contracts and sales, **FUNDAMENTALS OF BUSINESS LAW: SUMMARIZED CASES**, 9th Edition condenses the latest legal topics--the Sarbanes-Oxley Act, cyberlaw, health-care and financial reform, the housing crisis, and more--for quick comprehension. Helpful learning tools like boxed features, highlighted terms, learning objectives and summaries, self-testing, and review questions make **FUNDAMENTALS OF BUSINESS LAW: SUMMARIZED CASES**, 9th Edition the easy-to-understand alternative to traditional Business Law books!

Customer Reviews

This book was used for my college course this summer. It was my first law class, and I had a lot to learn. I believe this book provides a good basic introduction to the basics of law. Although I am not planning to be a lawyer, I definitely learned a lot and have found that I am already utilizing some of the information I retained throughout the course. The book is straightforward and an easy read. It's not the most exciting book, but then again, I don't think many law books are. I took a look at one of the earlier editions, and this book is definitely more concise so for that I'm glad. I received this book in basically "Very Good Condition". The front cover was once lightly bent in half so the crease could still be seen. However, the pages were all very clean, neat, and intact as well as the binding. Overall,

I am satisfied with my purchase. If your professor assigns this book for your course, don't hesitate. The book isn't too bad. I've definitely read more boring (history) books.

This is one of the best textbooks I've ever studied from. I don't think there's a single wasted word or sentence. Each concept is well laid out without unnecessary repetition usually found in textbooks. The chapters are short but packed full of information; I learn more from one 16-page chapter in this than the 60-page chapters in any of my other textbooks. Nearly every concept is clearly illustrated with brief but poignant case examples. The chapter summaries and exercises are exactly on point as well. I really can't say enough about this book. For a textbook, it's amazing. I wish all textbooks were written so well!

I rented this book, it served its purpose. I'm grateful. It helped me to master the class, because the teacher wasn't the best suited for teaching the class although his experience in the field suggested otherwise. What I'm not happy about is the fact that I received the book in a shabby condition. I found out in class that the spine of the book had been glued together before it had been sent to me. In short, I paid for the rental, and then had to BUY this book because of someone's shady practices. Outside of that? This is a great book to use for Business Law.

It's strange to say, but this class is fun. And the teacher doesn't REQUIRE us to buy the book, but it's helped a lot with his lectures. Thank you for your product and when it arrived, it was basically BRAND NEW.

This is the best textbook I have ever read. Everything is pretty easy to understand and set up nicely; there's no fluff. Each chapter has multiple case examples that make whatever you're learning about even easier to understand. And everything you read is actually useful information for everyday life. This is the only book that I actually enjoyed reading for class and I can't really hate a book that references 'crackpots', lol.

This book was assigned to a class I took. However because the book was so heavy I was looking for an alternative way to digest the material on the go. Having this e-format took some getting used to but in the end I enjoyed the flexibility.

Book is a requirement for class. I have it in electronic format rental much cheaper than owning and

much better than Chegg they require an internet connection kindle wins

This book looked almost new in its condition. There were very few marks in the book and was in as good a shape as the ones on the school book store
