This text book was purchased used from an individual seller, I was really surprised how clean and mark- free it was. Purchasing text books is very expensive and this one is no exception. If you can buy a good used copy do so, because chances are the edition will change in about a year. It is a nice, clean hard back text book that I didn't have to buy new.

The book receives a 5 star. The book is like new and I paid only a few bucks. I can highlight or write notes and use the book in my further studies of law. The delivery time was only one or two days!

This book is textbook to be used for a Criminal Justice class. It explains all the processes very plainly and easy to read.

I received my book quickly and was very pleased. The little highlighting that was in the book actually helped me in my class....lol!

Another book that my daughter needed for college. The text books are very reasonable. If you get a seller's account you can turn around and sell them the next semester.

Great product. Husband would not have been able to get his book for class if I was not able to get his book here. Was much lower than getting it at school.

It is a shame that this poor in content and horrible written, expensive books are used in colleges. The editorial must review this materials

The book arrived fast and was in mint condition. I have spent less amount of money by ordering from than buying from a book store.
