This book is an excellent supplement to the author’s other materials. I run a tutoring business (Kay Tutoring, www.kaytutoring.com), and Erica’s books comprise our complete curriculum for SAT prep (we also use her books for ACT prep). Although I think the book works best when interpreted by a tutor (obviously I am biased as that is how we use these books), a motivated student could do this on his or her own, or a parent could just as easily do this with his or her child. I sometimes worry that if everyone bought all of Erica’s product there’d be no need for tutoring :) I still remember my reaction when I first came across Erica’s first book: WHERE HAS THIS BOOK BEEN ALL MY LIFE! I had my own curriculum, which I felt was quite good, at the time, but it honestly didn’t compare with Erica’s curriculum. I know that using Erica’s curriculum is a huge reason we’ve been able to be so successful vs. our competitors with ACT, SAT and PSAT prep. We now do a fair amount of Skype tutoring as word has spread about how we can guarantee really high scores for our motivated
students--this guarantee is largely backed on the strength of Erica’s curriculum. I couldn't wait to get ahold of Erica’s new program for the new SAT because I knew it would be just as great as her other materials...and it is!

Great practice tests! They are almost perfectly aligned to the real SAT.
