Customer Reviews

This is a fun book to read as well as to enjoy the unique photos of the first live jaguar ever photographed in Arizona. The Glenn family has done much for conservation in southeastern Arizona and some of the proceeds from the sale of this book go to the cause.

175 pounds of jaguar in the American Southwest is a rare thing to photograph, and the author's story of how he went hunting mountain lion and ended up ... briefly ... being hunted by a jaguar makes gripping reading, with awesome photos of a large and beautiful predator calculating its chances. This is a slim volume, but not to be missed!

I really enjoyed this book. It had many facts that were useful in my study of the beautiful jaguars of South America. The northern Territory has many fascinating aspects to it and the jaguars are certainly the most interesting. If you are interested in these amazing creatures this book is a must read... or at least a must skim.
