Customer Reviews

I appreciate you sharing the "Leitner Method" for studying. My grandmother is an educator and she had my mom using flashcards really early on. She says 5 times with flashcards locks it in. Your flashcards are intense and extensive. I appreciate your hard work putting together such a wonderful tool!

I found it was very easy to separate the flashcards. I just put a rubber band around the different sections and my daughter can easily take a pile and go anywhere she wants with it. I like the flexibility the cards provide, she can do it in the car or in school. She's a straight A student and has always done better with flashcards, so your system is perfect for her. I liked the way the cards are organized. Makes learning easy.

I have to say at first I was overwhelmed by the amount of information on those 400 ish card!!!! Yikes! Then after I started working through the cards and I realized I didn't need to "memorize" all the content, I just needed to get the concepts down, it became much more manageable. I'm actually enjoying picking out 5 cards a day to review and study. Thanks so much!!!!

This test is important to you and your future. If you do well, you will have a lot more doors open to you. So it is understandable that you want to review and see what you can do in way of studying. One way to study that will really make a difference is to use these flash cards. These cards have all of the content on them that you need to know for this test. Study the cards and youâ™ll feel prepared and that should even help you take some of the pre-test jitters out of your system. The more prepared you are, the more confidence youâ™ll have and thatâ™s never a bad thing when it comes to taking an important test like this one.
