Solomon's Power Brokers: The Secrets Of Freemasonry, The Church, And The Illuminati

Synopsis

Is Freemasonry nothing more than a benign and charitable men's social club as the Order insists or does it have a deeper and perhaps darker purpose? Could these men be part of the "Illuminati" - a group of intellectuals with extremely grand plans for the development of civilization? And if so, what is the grand plan that these men were so determined to bring about, and why should there be such opposition to it? Christopher Knight and Alan Butler reveal that present-day freemasons are the spiritual descendents of an ancient priesthood that was forced to act in secrecy. In the early days of Christianity, their views offended and opposed those of the orthodox Church, and later in feudal Europe, both the State and the established Church considered them heretics and sworn enemies. Yet, they could not be silenced - or defeated - and members of this priesthood have continued to this day to work in subtle and sometimes subversive ways to achieve their aims, often occupying very elevated positions within Western society, and always maintaining complete anonymity to those outside their fellowship. The extraordinary story that unfolds in "Solomon's Power Brokers" reveals that the building of the modern world was no haphazard process. There was a grand plan - and it has succeeded. The "New World Order" is already here.

Book Information

Hardcover: 320 pages

Publisher: Watkins; First Edition edition (April 1, 2007)

Language: English

ISBN-10: 1842931687

ISBN-13: 978-1842931684

Product Dimensions: 9.5 x 6.4 x 1.2 inches

Shipping Weight: 1.2 pounds

Customer Reviews

I like this book a lot. There is a real thread here that has been well developed by these guys. This is more speculative than the well-argued case such as explained in their previous book - Civilization One, but its all pretty convincing anyway.

lots of interesting history and coming up in the ages to current

If anyone thinks Christopher Knight's books aren't true, I can't understand why. Not only are they well written, they are thoroughly documented throughout all the pages.

Very informative book and very well written! I recommend it! This is great as a historical reference, which is why I bought it.

Always good work by Christopher Knight.

Let's face it, secret organizations control everything. Knowledge is their leverage. So they feed the masses lies. This book contains 8 pages of colored photos to help you begin to see and think about symbols. If you read the book closely, with a highlighter and a pen, you will discover it has a lot of information. Barry Ogston - author of ABC Water and the Number Crunch

How this guy continues to get published is beyond me. He never presents a fact...he'll start out with an assumption, discuss it, and then later on, build a new assumption on the previous assumption, but now present it as if it were fact! I've been a 32nd Degree Mason of the Scottish Rite for over 10 years now...and Knight's books have always been good for one thing and one thing only: a laugh at Knight's own ignorance. I read The Hiram Key with an open mind and an attempt to see where he was coming from. The only value that book had was for entertainment purposes, and for spurring of some interesting debate amongst Lodge members. Refer back to one of his other books where he discusses Jacques De Molay as the source of the Shroud of Turin. While an interesting theory, he never once provides compelling proof of, well, anything. A wonderful storyteller, nothing more. If you're looking for FACTUAL books about Masonry, do not look to Christopher Knight for the truth.

Waste of my time and money. The cover of the book is all there is to it. Don't buy it.
