The crafts in here are perfect for home or classroom. None of them take a long time to do and they’re geared for the age group recommended on the book. That’s important to me since I’ve bought many and then found that I’d have to work on adapting it in order for my kids to actually do the craft. There’s a good variety and this book covers crafts for the main Bible stories that we use.

I was disappointed with this item. It was expensive for so few pages. The drawings were rough and crude. No depth to the stories. Too expensive for what you get.
