Sent this to my sister near Phoenix. She's always complained we get prettier birds in Midwest. So I wanted her to learn some of the birds out there. She just got it, very quick shipping, and already has started to use it. Already she is enjoying it and planning some bird walks. So a worthwhile purchase!

I bought this guide as I did not want to bring my heavier bird book on a recent trip. The guide is lightweight and proved very handy in identifying some common birds seen in Arizona as well as sanctuaries to see birds.

Nice poster that shows Arizona birds. Too bad it is folded as shipped. Each bird picture is about one inch in size.

Very good to recognize birds at first sight and handy too but also very succinct for with NO explanation nor definition. Enough to know what bird you are just seeing. Price as a result can seem a tad too high for just "that".

I like this quick laminated pamphlet. It easily identifies many birds in Arizona. I like to take it with me when I go to the rivers in Arizona. It is great because it won't get ruined if it gets wet and it is light and easy to take with you. It is a great bird guide.

Small little pocket guide, with great photos. Good to bring with in your car or for your little nature walk to explore and be able to see and name the birds. Great pocket guide for bird lovers!

This is a quick reference to use to identify the birds in Arizona. I keep it close to where I watch all our birds, and it is very helpful.
